# KOMATSU

## Women:

**Chest:** Measure loosely around the fullest part of the bust. Half chest measurement is half of this figure.

**Full Length:** Measure distance from the top neck area of the tee down to the bottom.

## Men:

**Chest:** Measure loosely around the broadest part of the chest. Half chest measurement is half of this figure.

**Full Length:** Measure distance from the top neck area of the tee down to the bottom.

## How to ensure a good fit?

Firstly, consider the type of fit that your chosen jacket is, as this is how the jacket is typically worn. Some jackets are intended to fit loosely and have a draping quality. Others should be worn closer to the body for warmth or style.

A jacket should always allow ease of movement and be comfortable. As a general rule, add 5cm to your body measurements to determine the jacket size.

## How do I use the sizing chart now that I have my measurements?

If your measurements are:

Chest: 125cm

Shoulder: 19cm

Sleeve: 64cm

As an example, your ideal size would be a "Medium Winter Jacket"
